

SPECIAL EXHIBITION EES SOUTH AMERICA – SOLAR AND ENERGY STORAGE, THE PERFECT MATCH!

Positive outlook for Latin America and Brazil

Distributed generation is starting to gain a larger share of LATAM’s solar market. However, utility-scale solar is the primary market driver due to a rapidly declining price trend. The continent is positioned to be one of the most attractive regions for solar development. Since the high penetration of renewables in South America’s future power systems will significantly increase the need for flexible operational measures, the focus on innovative energy storage solutions is rising. A circumstance that Intersolar South America serves with its special exhibition “ees South America”.

The special exhibition “ees South America” will be hosted for the second time in São Paulo, after more than 25 exhibitors were welcomed in 2017 presenting energy storage innovations and programs.

ees South America is the industry hotspot for suppliers, manufacturers, distributors and users of stationary and mobile electrical energy storage solutions. The focus at ees is on energy storage solutions suited to support and complement energy systems with increasing amounts of renewable energy sources attracting investors, utilities, installers, manufacturers and project developers from all over the world.

Special exhibition ees South America

Part of Intersolar South America

Dates August 28–30, 2018
Hours 12:00pm–8:00pm on all 3 days
Venue Expo Center Norte, White Pavilion
 José Bernardo Pinto St., 333
 Vila Guilherme, Zip code: 02055-000
 São Paulo, SP Brazil

Areas of focus Rechargeable Batteries
 Energy Storage Systems
 Charging Technologies
 Battery Production Equipment and Materials

Visitor Profile Manufacturers and Systems Providers
 Systems Integrators
 Utility Companies
 Grid Operators
 Municipalities and public institutions
 Energy Trading Companies
 Planners and Installers
 Equipment & materials manufacturers
 OEM’s in the Automotive Industry
 Research & Science

Exhibitor Profile Manufacturers
 Suppliers
 Distributors
 Service Providers
 Project Developers/EPCs
 System Integrators
 Research Institutes
 Battery Equipment & Materials

Co-Organizer

JOIN THE EES PAVILION AT INTERSOLAR SOUTH AMERICA 2018

The ees Pavilion offers an attractive complete package within the ees South America exhibition space.

Cost savings through...

The Pavilion is an all-inclusive package and designed attractively. (See the complete list below for fit out items.)

Less preparation effort by...

- Technical/organizational support from our team – before, during and after the exhibition.
- Reservation of shared floor space in a good location
- Conception of the presentation by an experienced planner
- Reduced coordination effort with the exhibition organizer

Plus...

- ees ad in event directory with all pavilion exhibitor logos
- ees banner in one newsletter with link to special section at website about electrical energy storage with all pavilion exhibitor logos
- Special press release with all pavilion exhibitors listed

All this for just one great price!

9sqm: €3,200

12sqm: €3,950

Individual Services

9 or 12 sqm booth within the pavilion including

- Grey carpet
- Lighting (1 spotlight for each 3 sqm)
- 1 outlet 220 V/500 W
- White partition walls
- Name board
- 1 table
- 3 chairs
- 1 stool
- 1 counter
- 2 shelves
- Trash can
- Fire extinguisher
- Power supply point
- City hall taxes
- Cleaning Fee (set-up/dismantling)
- Catalog entry with logo and description (Portuguese & English)
- 3 product groups in the event directory free
- Exhibitor Passes
- 10% discount on Intersolar South America Conference Tickets
- Free Ticket for Networking Reception
