

CHARGE UP LATAM – JOIN THE SPECIAL EXHIBIT E-MOBILITY@POWER2DRIVE SOUTH AMERICA

Power2Drive South America is LATAM’s key exhibition and conference for charging infrastructure and e-mobility.

Firmly rooted in the region, it highlights the role of electric vehicles in a sustainable transport future and their growing importance in the regional energy mix. The event brings together manufacturers, suppliers, installers, distributors, fleet and energy managers, e-mobility service providers and start-ups. It will take place as part of The smarter E South America, LATAM’s largest alliance of events for the energy industry, in São Paulo, Brazil.

At the Special Exhibit e-mobility@Power2Drive South America electric vehicles are in the spotlight. Show your innovative products to a crowd of renewable energy enthusiasts! Present our latest developments and secure your market share in a dynamic market.

LATAM’s Largest Alliance of Events for the Energy Industry

The smarter E South America will take place from August 25–27, 2026 in São Paulo, bringing together the following events:

- **Intersolar South America** – LATAM’s Largest Exhibition and Conference for the Solar Industry
- **ees South America** – LATAM’s Key Event for Batteries & Energy Storage Systems
- **Power2Drive South America** – LATAM’s Key Exhibition and Conference for Charging Infrastructure and E-Mobility
- **Eletrotec+EM-Power South America** – The Event for Electrical Infrastructure and Energy Management

REASONS TO BE PART OF THE SPECIAL EXHIBIT E-MOBILITY

The participation at The smarter E South America via the Special Exhibit e-mobility offers an excellent opportunity to enter the Brazilian renewables market. The pavilion's complete package lets you concentrate on your business, while we facilitate the rest.

Cost savings through...

an all-inclusive and attractively designed package. See the complete list for fit out items.

Less preparation effort by...

- technical/organizational support from our team – before, during and after the exhibition
- reservation of shared floor space in a good location
- conception of the pavilion by an experienced planner
- reduced coordination effort with the exhibition organizer

Plus...

- more attention compared to individual exhibitors through dedicated pavilion marketing by the organizer
- good visibility as the pavilion is placed prominently and marked on the floor plan

Your target group is waiting for you

More than 58,000 visitors are expected to attend. The 3-day event is attracting investors, utilities, installers, manufacturers and project developers from all over the world.

The Brazilian non-hydro renewables market gathers pace

The Brazilian power system is by far the largest in Latin America. Solar PV in combination with energy storage and energy management systems are gaining importance.

All under one roof – The perfect match

4 exhibitions with more than 600 exhibitors covering topics of the new energy world on the platform The smarter E South America uniting solar energy, energy storage, energy management and e-mobility.

There is so much more

Apply for the coveted AWARD, check out the speaking opportunities at the Innovation & Application Stages and network at various side-events. Expand your brand awareness by booking attractive sponsorships. The smarter E South America is more than an exhibition.
